Sir:

30

In response to the final outstanding Office Action, dated September 5, 2002, please
amend the above-identified patent application as follows:

IN THE CLAIMS:

35

Please amend the claims as indicated below. A version of the claims which has been
marked to show all changes is included as an Appendix.

40

1. (Twice Amended) A method for generating a configuration file for at least one firewall
in a network, said network including a plurality of hosts, said method comprising the steps of:
receiving a definition for a plurality of roles that specify the ability of a host to send and
receive packets, wherein each of said roles may be assigned to said hosts independently of a topology of
said network, such that said hosts inherit said definitions associated with an assigned role;
receiving an assignment of said roles to said hosts in said network; and
